

FRUIT TREE, BLUEBERRY & RASPBERRY PRODUCTION

WORKSHOP

Saturday, February 20, 2010 from 9:00 a.m. to 3:00 p.m.
Sugar River Valley Regional Technical Center - Newport Campus

Please join us for an educational workshop on fruit tree, blueberry and raspberry production hosted by Sullivan County UNH Cooperative Extension. Bill Lord, Professor Emeritus, will provide *entertaining* education. We have put together this day long session in response to the growing demand for information on how to plant and raise fruit trees, blueberries, and raspberries at home. The workshop will cover apples, pears, peaches, plums, apricots, and nut trees, along with blueberries and raspberries. Topics will address selecting appropriate varieties, root stocks, and planting distances, pruning, general fertility management, pest control, soil preparation, thinning fruit, and what to do when your trees and bushes don't bear fruit.

While this workshop is geared towards homeowners, commercial producers are welcome.

Date: February 20, 2010

Time: 9:00 am to 3:00 pm

Cost: \$5.00 per person

Please make checks payable to UNH Cooperative Extension
